EXFO

EXPERTISE REACHING OUT

- 9.00- 10:00 registrace
- 10.00-12.00 přednášky
 - General Introduction
 - Y.156SAM and EtherSAM
 - OTN News trends
 - High Speed – 40G and 100G
- 12.00-12.30 diskuse

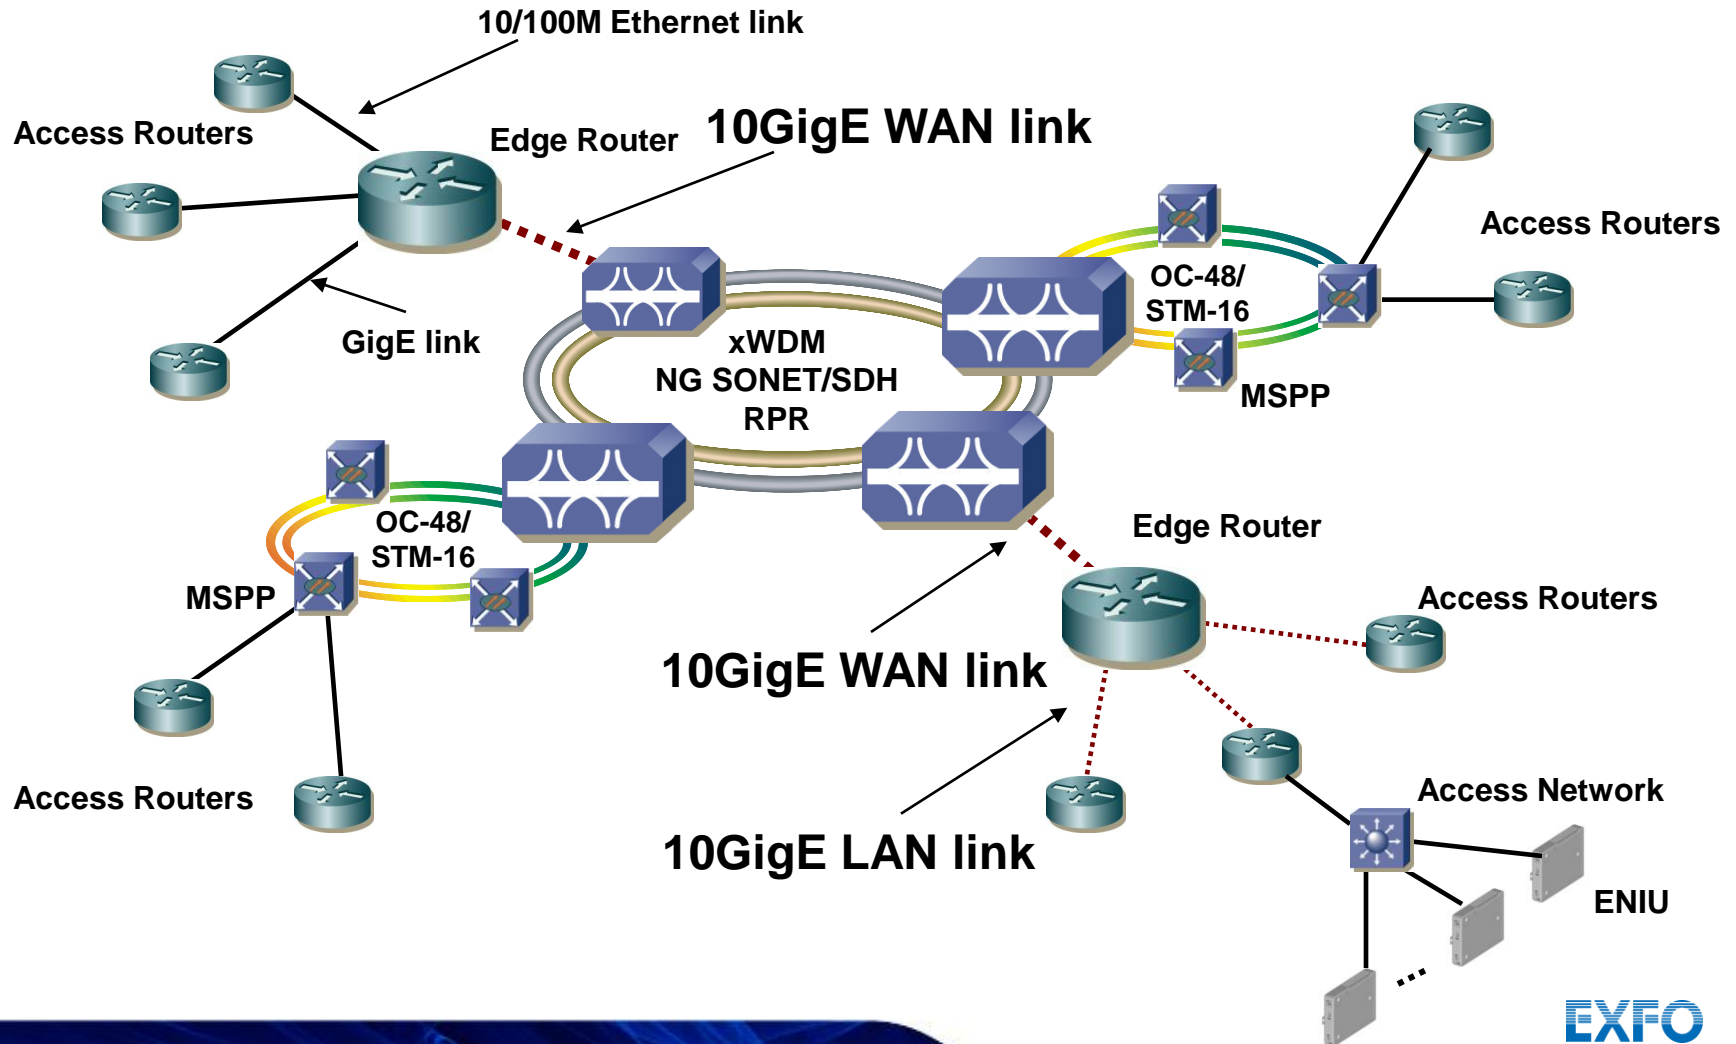

General trends in the market

Deployment

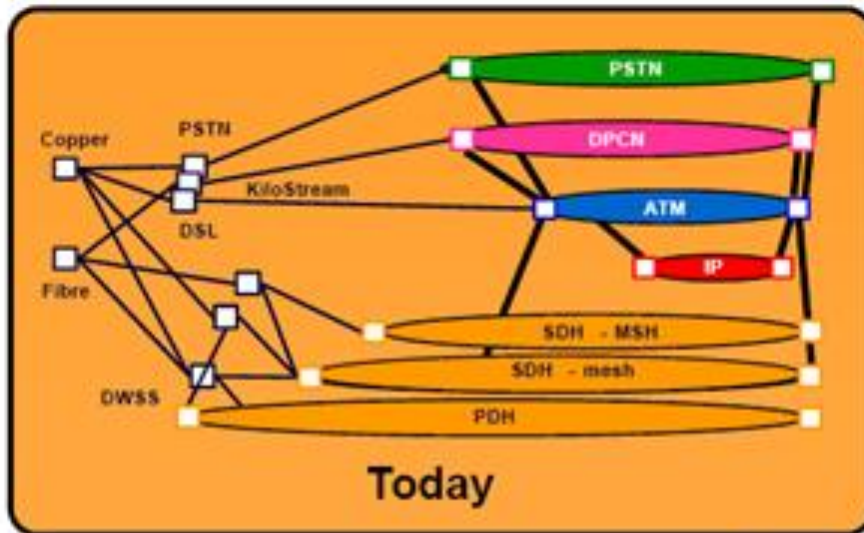

- Increased deployment of ROADMs (WSS)
 - Need to supported properly
 - Can only be done with OTN
- Trend towards 3G and 4G (LTE)
 - PDH is not sufficient anymore
 - Ethernet with several CoS
- PDH and SDH is coming to its end of life cycle
- New networks are designed based on EoOTN (Ethernet over OTN)

Ethernet in Carrier Networks

Design

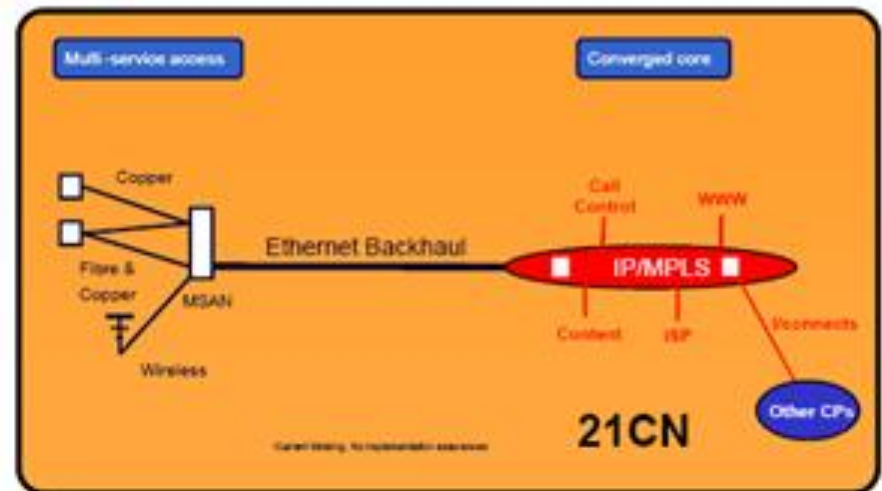

21CN EVOLUTION

Today

Massive network simplification
