WHAT IS UNICO mobile

UNICO mobile is a portable workbench on which you can fasten, with the fixing screw, instruments or tools. This solution allows to prevent the accidental fall of the equipment, both on “ground” or “aerial” applications.

UNICO mobile consists of a main shelf in reinforced plastic designed to attach in complete security:

UNICO mobile: COMPATIBILITY

UNICO mobile is conceived to ensure full compatibility with main arc fusion splicers and cleavers available on the market

Brand	Splicer model	Splicer fixing system
	View 3 PRO	"A" screw
	View 5 PRO	"A" screw
	View 8 PRO	"A" screw
	M7	"A" screw
	12S	"C" screw
	22S	"C" screw
	31S	"C" screw
	41S	"C" screw
	62S	"C" screw
	70S	"C" screw
	70S+	"C" screw
	Fitel S-179	"C" screw
	Fitel Ninja NJ-001	"B" screw
	Z1C	"C" screw
	T-25	"C" screw
	T-39	"C" screw
	T-66	"C" screw
	T-71C	"C" screw

Type B screw

Type C screw

UNICO mobile: THE STANDARD PACKAGE

UNICO mobile standard package consists of: workbench, cleaver support, shoulder strap, belt hooking system, 1 tool holsters, 2 type A screws, 1 type B screws, two type C screws, 1 100 ml refillable FO cleaner.

Workbench

Belt hooking system

Shoulder strap

Cleaver support

Tool holster

FO cleaner

Type A screw*

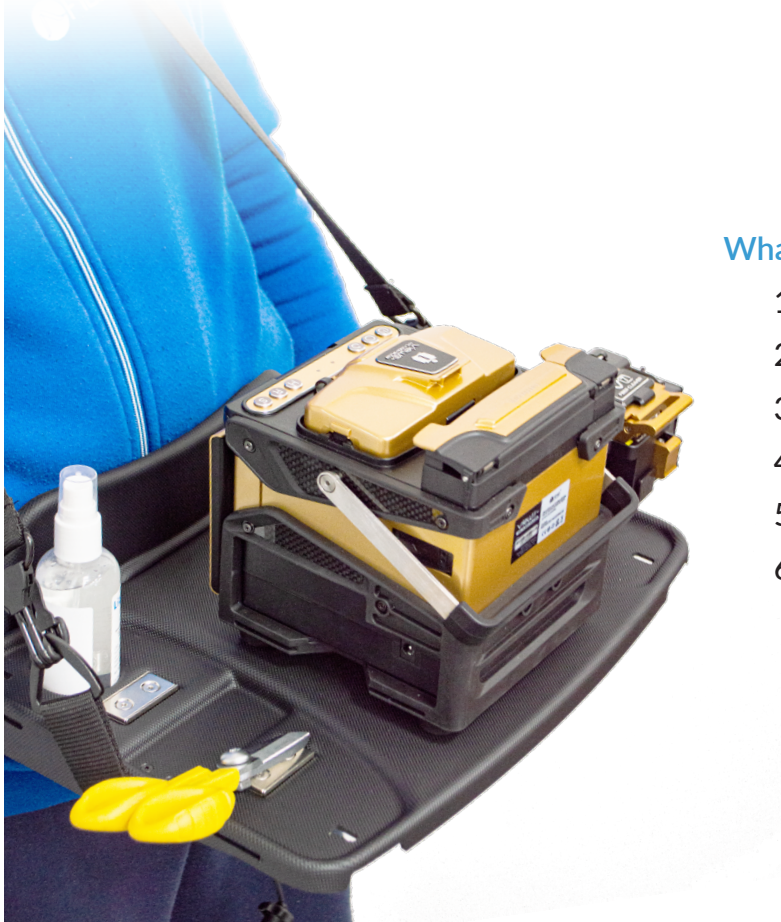

Type B screw*

Type C screw*

*Be careful: pay attention during the screwing procedure to avoid accidental damages to the splicer battery

In this kind of configuration, UNICO mobile is worn by the operator during the work operations

What is needed for this configuration:

1. Workbench
2. Belt hooking system
3. Shoulder strap
4. Cleaver support
5. Screws
6. Tool holster

UNICO mobile: OPTIONALS

Thanks to its optional features, UNICO mobile can be used in any type of on the field applications, always ensuring safety against accidental falls of your equipment

Ladder bracket

With this bracket, UNICO mobile can be fixed to the ladder: the operator can work safely in aerial applications.

Pole mounting system

Thanks to this kit, UNICO mobile can be easily fixed on a pole. Lightweight and easy to assemble, it is suitable for operations on aerial cabling.

Tripod

This system transform UNICO mobile into a stand alone workstation. A compact table, easily transportable, which eases operators on the field tasks.

OPTIONAL - LADDER BRACKET

UNICO mobile can be installed, using a special bracket, directly on the ladder where the operator works. This allows a completely safe “hands free” work mode keeping the equipment fasten to the work surface.

What is needed for this configuration:

1. Workbench
2. Ladder bracket
3. Cleaver support
4. Screws
5. Tool holster

Ladder Bracket

Complete configuration

OPTIONAL - POLE MOUNTING SYSTEM

UNICO mobile can be easily attached to poles, to ease the aerial installation tasks. The kit consists of a bracket and a ratchet strap, with a coil of 400 kg capacity, which allows a safe and fast assembly.

What is needed for this configuration:

1. Workbench
2. Pole mounting system
3. Cleaver support
4. Screws
5. Tool holster

TECHNICAL SPECIFICATIONS

Width: 365 mm - 14.37 in

Depth: 260 mm - 10.23 in

Height: 178 mm - 7.00 in

Weight: 1.25 kg - 2.75 lbs

Material: ABS - ASA

Belt hooking system length: 80 - 115 cm (31.50 - 45.27 in)

with optional extension: additional 15 - 30 cm (5.90 - 11.81 in)

Magnets: 4 (Traction: 17 kg in orthogonal direction to the magnet)

Fastening Accessories:

2 x Type A screws

1 x Type B screws

1 x Type C screws

CLEANING - MAINTENANCE

The most common soaps or detergents, dissolved in hot water, can be used to clean up general dirt. If it doesn't work, isopropyl alcohol can also be used. Avoid abrasive powders. Rough areas can be restored using silicone-based polishes.
